#### **DETAILED ACTION**

#### Request for Continued Examination

1. The request filed on November 18, 2005, for a Request for Continued Examination (RCE) under 37 CFR 1.114 based on parent Application No. 09/895,493 is acceptable and a RCE has been established. An action on the RCE follows.

#### Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the first paragraph of 35 U.S.C. 112:
  - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claims 6-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Regarding to claim 6, on line 9, recitation: "a first binary trip decision value" was not described in the specification.

- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 5. Claims 6-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Application/Control Number: 09/895,493 Page 3

Art Unit: 2634

Regarding to claim 6, on line 9, recitation: "a first binary trip decision value" is confusing and unclear of the definition of "trip". According to a dictionary, trip can mean 1. Going from one place to another; a journey. 2. a. A device, such as a pawl, for triggering a mechanism. b. The action of such a device. Therefore, Examiner is confused with correct interpretation of "trip".

## Allowable Subject Matter

- 6. Claims 1-4 are allowed.
- 7. The following is an examiner's statement of reasons for allowance:

None of the prior art teaches or suggests a differential relay in a communication system as the current application. In specific, U.S. patent number 4,760,487 by Kwong et al. is a very close art, but failed to teach a first and a second bidirectional communication channel extending between a first and a second protect relays; a switch at each of the first and second relays selects from either first position to second position when an indication that one of either the first communication channel and the second communication channel is faulty.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 09/895,493

Art Unit: 2634

### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Eva Y Zheng whose telephone number is 571-272-3049. The examiner can normally be reached on M-F, 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on 571-272-3056. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
